

What is Project WET?

- Water Education for Teachers
- Not-for-profit organization
- It is for teachers K-12 grade, educators, and anyone else who works with children
- Offers an extensive series of water resource education materials
- Correlated to national and state standards including
 - Common Core Standards
 - NGSS (Next Generation Science Standards)
 - STEM Educational Coalition objectives
- Activities are designed to supplement and enhance materials or programs that students already use
- Activities build upon and engage student knowledge and skills across multiple subject areas including
 - Art
 - Social studies
 - Science
 - Language arts
 - Music
 - Math
 - Health/PE
- Teaches students HOW to think, not what to think

Why?

- 1 in 8 people worldwide lack access to adequate supplies of clean, safe water
- The total amount of water on earth cannot be increased, but we can learn to protect, conserve and better manage the water resources available to us

Upcoming Workshops:

1. Saturday March 17, 2018 10am-3pm non-PD
<http://www.signupgenius.com/go/20f0a4dafac2da5fd0-free>
2. Monday March 19th and Tuesday March 20th 2018 8am-4pm PD Credit

For more information about the workshops, please email watersmart@hbws.org or call the Honolulu Board of Water Supply, Water Conservation Branch at 748-5965.
