

PRIMARY URBAN CENTER WATERSHED MANAGEMENT PLAN

COMMUNITY MEETING #3 *ISSUES, PROJECTS AND STRATEGIES*

With issues such as climate change, sea level rise, flooding, and an increasing population, how will we make sure we have enough water for Honolulu in the future?

The Honolulu Board of Water Supply is developing the Primary Urban Center Watershed Management Plan. Join us to learn about water-related issues and concerns for Honolulu and water supply options for meeting future water demands. We will also discuss key projects and strategies to protect our water resources for future generations.

Please join us for one or more of these community meetings:

Tuesday, October 23, 2018
Kapālama Elementary School
1601 N School Street, Honolulu

Thursday, October 25, 2018
Ala Wai Elementary School
503 Kamoku Street, Honolulu

Tuesday, October 30, 2018
'Aiea Elementary School
99-370 Moanalua Road, 'Aiea

All meetings are from 7:00 to 8:30 p.m. in the school cafeteria.

An informational presentation will be provided, followed by comments and questions.
