WATER QUALITY REPORT

THE QUALITY OF OUR DRINKING WATER

The Board of Water Supply works hard to provide a safe, dependable, and affordable drinking water supply to Oahu customers throughout the year.

Each year, we provide our customers with an annual report on the quality and contents of our drinking water. You should receive your 2022 Water Quality Report by July 1.

Please take the time to read it. It will:

- Identify the source of your drinking water.
- Show any substance and levels detected in drinking water.
- Describe any treatment used to make the water safe to drink.
- Explain the terms used in the regulation of drinking water.

We are blessed with water that is among the best in the world, and your awareness of your water supply is an important part of protecting and conserving this finite resource. Please log on to **www.boardofwatersupply.com**, or call us at **(808) 748-5041**, for more information on the Water Quality Report.
