Aloha Valued BWS Customer,

This mailing contains your second Board of Water Supply (BWS) Semiannual Water Quality Report for 2025. An Environmental Protection Agency rule change requires BWS and other large water suppliers to publish the report twice a year to ensure that the public has current water quality information.

Effective July 1, 2025, a semiannual Water Quality Report will be issued by July 1st and December 31st of each year. You should have received your first semiannual report in July.

This report is also accessible online to all O'ahu water users – including those who do not receive a BWS bill - at www.boardofwatersupply.com/wqr.

Also, as mentioned previously, the BWS plans to eventually stop mailing out the reports while continuing to keep them available online. We will keep you informed as we get closer to implementing this change.

If you have any questions regarding your Water Quality Report or any other BWS issue, please contact us at (808) 748-5041 or email us at contactus@hbws.org.

Mahalo, too, for your continued efforts to help make every drop of water count.

Respectfully,

Ernest Y.W. Lau, P.E.
Manager and Chief Engineer

As a Board of Water Supply customer, you have received this Water Quality Report with important information about the quality, contents, and treatment of your drinking water. For a translated copy of this report or to get assistance in another language, call the Board of Water Supply Communications Office at (808) 748-5041.
