The Department of Health (DOH) has received your letter and the proposed sentinel monitoring wells locations from your consultant, HDR Engineering, Inc. The Navy has indicated that Well 1 and Well 2 will be installed in the near future, followed by Well 3 and Well 4 at a later date. The Navy has requested DOH approval for the proposed locations of Well 1 and Well 2.

DOH concurs with the proposed locations for Well 1 and Well 2. Please proceed with installation of these wells to provide essential data for the groundwater flow models and fate & transport models that will be prepared for this area North of the Complex.

If you have any questions regarding this letter, please contact Mr. Richard Takaba of our Underground Storage Tank Section at (808) 586-4226.

Sincerely,

STEVEN Y.K. CHANG, P.E., CHIEF
Solid and Hazardous Waste Branch
